POE'S VINEYARD

—1919-1920—

HOME OF THE MAMMOTH GRAPE

G. H. POE, Kenton, Hardin Co., Ohio

Introductory

Quality and Prices. I do not claim to furnish the cheapest vines in the world, but I do claim that no better or healthier vines are grown anywhere than are produced here in the Scioto valley. My prices are as reasonable as can be made for high class stock, and I believe are as low as other reliable firms. An inferior vine is dear at any price. Vine planting involves years of outlay, care and waiting, and no planter can afford to handicap himself by beginning with inferior specimens. A very slight difference in first cost may make a world of difference in results. A safe rule is "Not the cheapest but the best."

Orders Should be sent in as early as possible, as I enter them for shipment in the order received. When sent early before the rush begins, they are most sure of prompt attention.

Guarantee of Genuineness. Everything sent out will be carefully labeled with its true name. Only experienced and careful help will be used in putting up orders. I sell my stock under a warranty that it is true to name and of quality represented with the express understanding and agreement that should any not prove true to name, I will replace the same without charge, but am not liable for damages other than above named.

The Packing Season Usually opens here the 15th of April and continues well into May. In the fall I begin the latter part of September continuing through October and November.

Customers Are requested to notify me instantly of any errors made in filling their orders, so that I may at once make ample amends, as I desire to conduct my business in all respects satisfactory to those who favor me with their orders.

Reference. Any Bank or Business House in Kenton, Ohio

The Mammoth Grape

The largest and most magnificent grape in the world, the berry measuring one (1) inch or more in diameter. For table use, for jelly, for wine, for an arbor, and for healthfulness and appearance it has no equal. Vines strong and thrifty growers and are abundant bearers. Fruit ripens in September. Berry is the color of Concord, and as fine a flavor, Has from two to three seeds, bunches large and compact; skin is a little tough and bee proof, pulp very tender, sweet and juicy, the pulp parts easily from the seeds. This grape will grow in any climate is free from mildew or blight. I am the sole owner and producer of this grape. I have grown this one particular kind of grape for years and I find this is the one to grow for profit and pleasure. I don't grow any other grape vines for market. This grape I deliver, one or two year old vines, any place for one dollar each or six vines for five dollars. I furnish printed instructions with all my vines, If this is followed, and the vine dies the first year, I will replace it free of charge.

I grow the Crimson Rambler, White Rambler, Yellow Rambler, Dorothy Perkins or Pink Rambler and the Crimson Baby Rambler. Good strong two year old vines for \$1.00 each.

I have hundreds of satisfied customers in twenty-eight different states who I have sold this grape to and will still continue to try and please all new customers.

Please Send in Your Orders Early.

Terms: Cash with the order.

A Word to My Patrons

All orders entrusted to me shall have my prompt attention. No pains will be spared in digging and packing each order so as to insure safe delivery of goods either by mail, express or by agents. The prices named in this Price List includes the price of delivery of said vineyard stock to your house or express office. Make all remittances by P.O. money order or any other safe way to send money. I will not be responsible for money sent through the mails. Write your name and address plain, giving town, county, State and R. F. D. This will insure prompt delivery.

Certificate of Nursery Inspection

No. 140.

Columbus, Ohio, August 15th., 1919

This is to certify, that the Nursery Stock for sale by G. H. Poe, of Kenton, County of Hardin, State of Ohio, consisting of GRAPES has been inspected by a duly authorized inspector, in compliance with Section 1126, General Code, and has been found apparently free from dangerously injurious insects and plant diseases,

This certificate, granted under the provisions of Section 1135, General Code, is invalid after Sept. 15th 1920, and may be revoked earlier for cause.

E. C. COTTON, Chief of Bureau.

N. E. SHAW, Sec'y of Agriculture

All vines for shipment will be fumigated under the direct supervision of the Chief Inspector of the State of Ohio.
